A DASH FOR LIBERTY.

The Devotion of a Wife--One of the Most Remarkable Escapes on Record.

The Memphis (Tenn.) *Avalanche* gives in full the escape from the jail in that city of White, a noted horse-thief, which has already been briefly mentioned by telegraph, to parallel this case to the acts to the noted John A. Murrell. In the afternoon on Monday White's wife came to the jail to see him. A little basket which Mrs White had on her arm was searched, and found to contain nothing but the material for a good dinner for her husband, the door of the reception room was open and the two were observed talking together by several of the officers of the jail. An hour or two afterward a negro man stated that he saw Mrs. White lift the skirt of her dress and take something—the nature of which he could not tell—and hand it to White, who put it in his bosom. The negro said nothing at the time, however, and the officers knew nothing of it until afterward. After talking for half an hour the two came out in the center of the vestibule, where White affectionately kissed his wife, who turned and walked to the outer gate, while White stood in the center of the vestibule, a distance of 25 feet from the gate, waching her. Guard Thomas Murray unlocked the gate and swung it wide open for the lady to pass through. Just as she reached the center of the gate, and while standing in such a way that the gate could not be closed, she asked Mr. Murray, "What time is it?" The gentleman very politely started to pull out his watch when throwing both hands high over her head, she cried, "Run, Captain White, run for your life." With the cry White made a jump for the gate, drawing a glittering navy six-shooter from his bosom, and just in three jumps was alongside of Mr. Murray. Mrs. White was still standing in the gateway, but as her husband came up she fell back, while the latter jammed his navy six-shooter against the temple of Mr. Murray and ran into the street. Running rapidly to the corner of Auction street, a distance of about thirty yards, he unhitched a large powerful dark bay horse and with a leap was on his back and away. Murray started to follow him up but was stopped by White, who having reached his horse, leveled his pistol and said "Stop, or you are a dead man." Not being armed. Mr Murray stopped.

Mr. Reilley, the turnkey, at the moment of the escape, was inside of the gate, distant about twenty-five feet from it. Seizing a large dragoon-pistol, he started in pursuit. In passing through the gate he was seized by Mrs. White, who cried: "Don't, oh don't for God's sake, kill my husband." Jerking loose from her he ran out on Front street, and White was galloping out Auction street. Stopping, he took aim and fired at White, who ducked down on the saddle and threw himself under the horse's neck in such a way as to expose only his left leg and arm. Taking aim the second time, seeing which White raised up and leveled a pistol at Reilley, as if intending to fire, but changing his mind, gave one yell of triumph, and waving his pistol above his head, went on a dead run out Auction street and the New Raleigh road. News of the escape was at once sent to Sheriff Doyle who within a half hour after the time had four mounted deputies on the road after him. Mrs. White was brought back and locked up to await an examination on the charge of aiding and abetting the escape of a prisoner. The horse White rode was taken there by a negro about the time Mrs. White visited the jail, and was evidently left there expressly for him.

HOW FAIR CHINESE DIE FOR LOVE.

In this "Far Cathay" Mr. Medhurst states that one morning he received a card from a wealthy young lady informing him that her betrothed having lapsed into the silent grave she made up her mind to commit suicide on a certain day. To Mr. Medhurst's surprise, his official remonstrances were received with commonplace civilities, and on the day named the young lady did deliberately sacrifice her life in the presence of thousands. A stage was erected in the open fields, with a tented frame over it, from which was suspended a slip of scarlet crape; one end of this she adjusted around her neck. She then embraced a little boy, probably a little brother, presented by a person standing by, and having let fall a veil over her face, she mounted a chair, and resolutely jumped off it, her little clasped hands saluting the assemblage as her fast falling form twirled round with the tightening cord

One of the greatest luxuries of riches is that they enable you to escape so much good advice. The rich are always advising the poor, but the poor seldom venture to return the compliment.

A New York girl got mad at her Kansas lover and expressed him 1,400 love-letters. She got pleased next day and telegraphed him to return the letters at her expense.

The Very Best Plan

by which you can obtain Life Insurance is the Low Premium, All Cash, Stock Plan. It furnishes the largest amount of insurance for a given sum of money. The contract is plain and definite, without complication, mystery, or uncertainty. The policy is always worth its face, the premium never increases. It is the most satisfactory and economical plan for the insured. The TRAVELERS INSURANCE COMPANY, of Hartford Conn., grants Life Insurance upon this excellent plan. Its security is unquestioned. Apply to any Agent, or send for a circular.

THE Post Office Department has been informed by the Government of Germany that the newspaper tax is no longer collected from persons in the Kingdom of Prussia, to whom may be addressed newspapers printed in the German language in the United States

FROM a recent report issued by the American Bible Society, it appears that the Society has 2,125 life directors and 4,200 life members, its receipts for the last fiscal year reached the sum of $737, 831. During the existence of the Society, it has published 29,982,212 volumes in 33 different dialects and languages.

THE Cincinnati, Louisville and Indianapolis Expositions are attracting an unusual amount of attention this year, and are said to exceed in extent those of any previous year. St. Louis will have to look to her laurels or she will be distanced by these cities in the extent and magnificence of their shows.

THE whole country will be astonished to learn that the extensive and well-known firm of Jay Cooke & Co., American bankers and brokers, New York, Philadelphia and London, has failed.—This will embarrass the Northern Pacific Railroad Company, whose bonds the firm has been selling, as agents, and possibly will effect the price of United States securities abroad, this firm being, with Mr. McCulloch, as the London partner, agents for the sale of our bonds abroad. This is the most serious financial failure we have had for some time, and we are apprehensive of the effect.

THE Board of Supervisors of Champaign county have by a vote of 21 to 8, formally repudiated the bonds issued by the county to secure the location of the State Agricultural College at Champaign City. The amount of these bonds was some $250,000, in consideration of which the offers of other cities were disregarded and the institution located at one side of the State, much, as we believe, to the disadvantage of the people of the State. Meanwhile the State has been induced to expend large sums of money on the institution and grounds at Champaign, to which under the circumstances, the people have no just claim. The action of the Board of Supervisors seems in very bad faith, and if the State property could be removed to some other locality, it would be nothing but an act of justice.—*Quincy Whig.*

EVERYBODY knows how common a thing it is to overestimate men's fortunes, particularly when they get up into the large figures. A correspondent who professes to have means of knowing, asserts that most of the large fortunes are thus exaggerated. He says the fortunes of Cornelius Vanderbilt, Alexander T. Stewart and William B. Astor are now represented at $100,000,000 each, albeit it is doubtful if any one of them has half as much. Astor may turn out, with his land and leases, to be worth $40,000,000; but Stewart will not be likely to foot up over $25,000,000 and Vanderbilt will be lucky to have $30,000,000. George Law enjoys the reputation of having $10,000,000, though half that sum would be nearer the fact. Peter Cooper ought to be put down for $2,500,000 instead of $5,000,000; Horace B. Claflin at $5,000,000, instead of $15,000,000 to $20,000,000; E. S. Jeffray at $2,000,000 instead of $5,000,000; August Belmont at $2,000 000 instead of $6,000,000. If this is true, one cannot help sympathizing with the unhappy individuals thus suddenly reduced from [illegible] almost to poverty

SPREAD OF MOHAMMEDANISM

Mohammedanism is making rapid progress in India "Year after year," says the London *Times*, "Islam is converting hundreds of thousands of our Indian subjects, and especially the natives of Bengal, to the faith of the Koran. This conversion, though not now accomplished at the sword's point, but in the peaceful shade of British rule, works a marvelous transformation in the very inmost nature of the convert ed It is said that the converts to Mohammedanism who are enlisted from the unwarlike population of Bengal—a people with a constitutional dread of physical danger which Europeans can scarcely understand—assume with their new faith a hardihood which would make them dangerous enemies and priced [illegible]

FINANCIAL DISASTER

SUSPENSION OF JAY COOKE & CO.

THE CAUSES OF THE FAILURE.

YELLOW FEVER INTELLIGENCE.

STEAMER WRECKED ON THE PACIFIC COAST.

News from the Polaris Survivors.

Latest Phase of the Tichborne Case.

The State Fair.

PHILADELPHIA, September 18.—The following card has been posted on the office door of Jay Cooke & Co., of this city.

"We regret to be obliged to announce that owing to unexpected demands on us our office has been obliged to suspend payment. In a few days we will be able to present a statement of our affairs to our creditors, until which time we must ask for their patient consideration. We believe our assets to be largely in excess of our liabilities.
(Signed) "JAY COOKE."

PHILADELPHIA, Sept. 18.—The firm of Jay Cooke & Co. has suspended. A great crowd is now collected around their place of business.

NEW YORK, Sept. 18.—There is great excitement on the street in consequence of the announcement of the failure of Jay Cooke & Co. The question is generally asked, "Who next?"

Stocks took a tumble generally, caused as much by apprehensions of the future as by the existing condition of affairs Prominent Wall street men attribute the suspension of the firm not so much to the effort to sustain their Philadelphia house as to their operations in Northern Pacific, which, it is said, they sought to carry beyond their strength. It is expected that the life insurance company with which Jay Cooke & Co. are connected, may have to go under.

It is also said that Jay Cooke has lost large sums in the recent Government movement; and another rumor is that the tightness in the money market and the inability to dispose of his paper hurried the suspension. The firm say that they are unable to make any further statements, save that they expect to resume business in a short time.

NEW YORK, September 18—It is said that Jay Cooke & Co., and McCullough & Co., of London, are solvent, with a large surplus above all liabilities.

NEW YORK, September 18—The excitement is intense at the Stock Exchange. Vanderbilt stands by his Central, and Lake Shore and Pacific Mail are cared for, but Western Union dropped from 88 to 78½. Money is quiet at from 7 to 7½ per cent. in gold. No failures other than that of Jay Cooke & Co are announced.

NEW YORK, Sept. 18.—Another day of intense excitement has passed over Wall street. Early this morning predictions were made that this would be a hard day, and one that would see the downfall of more than one financial house. The Chicago fire, it was thoug, htwould occasion a drain upon deposits, and tend to a panic. Stocks for the first two or three hours fluctuated wonderfully. Western Union fell ten per cent. without an upward struggle, but about noon recovered its opening figure. At noon the report was whispered that the house of Jay Cooke & Co. had suspended. At first the rumor was considered an idle one, or at most started by some scheming faction. However, it had great effect.—Men and boys ran races from office to office. The telegraph was incessant in its operations, and the excitement grew intense. Shortly after 12 m. it was officially announced that the suspension had occurred, the reasons therefor being advances made to their Philadelphia house, which rendered them unable to meet the demand upon their depositors here. As soon as it became generally known that Jay Cooke & Co. had suspended, many rumors touching other prominent houses sprang into existence, but all reports about the suspension of firms, excepting Jay Cooke & Co., Richard Schell and the small firm of Robinson, Suydam & Co., upon investigation, proved to be without foundation. When this fact was made known on the street, confidence was again restored, and at the close of business a stronger feeling prevailed. It is not thought that any other firm of prominence will succumb. Men regarded as among the safest and most judicious on the street give it as their opinion that the great danger is passed.

Robinson, Suydam & Co. expect to resume in a few days

Mr. Schell was not prepared to make any statement in regard to his liabilities. His suspension was occasioned especially by the decline in Vanderbilt stocks, in which he was a large dealer.

The liabilities of Jay Cooke & Co. cannot be ascertained. It will take some time to make a statement of the affairs of the house. The creditors are mostly banks and bankers, there being but few individual depositors in the list.

WASHINGTON, D. C., September 18.—The failure of Jay Cooke & Co. has been almost the sole subject of conversation throughout the afternoon. Rumor of the suspension of the New York house came about 11:15, but was regarded by the few who heard it to be intended to excite the condition of Wall street, and a half hour later it was denied. A few minutes after, however, positive news came over the wires—Several depositors, who had the first news, were paid their balance, and payments thus went on here for fully a half hour after the confirmation of the suspension at New York.

Mr. Henry D. Cooke, head of the Washington house, and all the officers of his bank seem to have been taken completely by surprise. If they did expect trouble, it was the opinion of all who were with them and about them immediately before the announcement of the failure that they had not expected it to-day. None of the officers of the bank were able to give any explanation of the complication which had caused the suspension. They were taken entirely by surprise. They were in the dark in regard to the action of their other houses; and while the Washington house could have paid dollar for dollar on their deposits, they felt obliged to await advices from the other houses.

The First National, of which Henry D. Cooke is president, continued to pay for about an hour after Jay Cooke & Co. had closed, when it followed, simply announcing that it had been found necessary to suspend business.

By 1 o'clock the city and departments were in a great ferment. The long connection of Jay Cooke & Co. with the treasury had brought it into close contact with all the departments, and the surprise and excitement could hardly have been greater if it had been asserted that the Treasury itself had ceased payment.

To-night Secretary Richardson says the Treasury will meet with no direct loss from the failure, as between the Treasury and the Syndicate, in the matter of the new loan the Treasury has received a little more from the Syndicate than has been issued in the new bonds to it.

It now comes out that in all the dealings with the syndicate, the Treasurer has let no bonds go out of his control until the syndicate actually paid over the funds for them.

The Quartermaster's office drew a large amount less than fifteen minutes before the doors closed, and a paymaster a check for his entire balance.

SAN FRANCISCO, Sept. 18—News reached this city at midnight that the Pacific Mail steamer Costa Rica, from Honolulu, was wrecked at Diablo point, near the harbor She was trying to come in with a full head of steam, but a dense fog prevailed, and she struck with tremendous force, wrenching her timbers from stem to stern, making a hole in her bows through which the water rushed in a torrent. The excitement and terror among the passengers was great, but Captain Lapidge and his officers succeeded in restoring some degree of order. Soon after the first outbreak of the alarm, seeing the danger of remaining on the ship, the order was given to take to the boats. Four boats were lowered, and the passengers were safely stowed in them One of the boats landed at Meiggs' wharf at 12 o'clock with two officers and six of the crew. At the same time they left the steamer three other boats put off, but they became separated. The Captain remained with his ship when the boats left. One boat capsized soon after leaving the vessel. The men in the boat were of the crew, and they were all picked up by one of the other boats. There were from twenty-five to thirty cabin passengers, including several ladies, two of whom fainted when the ship struck. Among the passengers was Charles Nordhoff, his wife and four children. The vessel will undoubtedly prove a total loss, as the place where she struck is a rocky and dangerous spot, immense bluffs rising perpendicularly from the water's-edge. All the passengers were saved.

NEW ORLEANS, Sept. 18.—The Howard Association of this city are in receipt of a dispatch from one of their physicians at Shreveport, stating that no more nurses or physicians than are now on duty there are required. The association here believe that the generous contributions received by them up to date will be sufficient to pay all expenses incurred

Natchez, Miss., has quarantined against the entire outside world.

WASHINGTON, D. C., September 18.—News of the safety of Buddington's party from the Polaris reached the Navy Department this evening. Acting Secretary Reynolds received the following dispatch from the United States Consul, dated to-day at St. John's:

To the Secretary of the Navy.—The Polaris party is at Dundee, [illegible] The Juniata left at [illegible] o'clock. I have hired a fast steamer for [illegible] to catch her, will go myself
MALLEY, Consul

The object is if possible to catch the Juniata and take her back to await the arrival of Buddington and his party. This is all the information the Department has up to 11 p. m.

PEORIA, ILL., Sept. 18—This is the fourth and great day of the State Fair. The attendance is nearly double that of yesterday, which is not far from 20,000. The grounds are uncomfortably crowded, and the throngs at the gates of entrance and exit are larger than the provision made for their accommodation There should have been twice as many gates as there are, and the failure to provide for them can only be accounted for on the principle of economy.

Altogether the fair is a decided success. The various departments are well filled with remarkably large lines of goods and wares.

The show of cattle is remarkable.—The ring of four-year-old Durham cows exhibited this morning was composed of twenty-four of the finest shorthorns ever seen together.

Of course the State Fair will be held here another year, and, indeed, there is some talk of permanently locating it here; but, in either case, the grounds must be enlarged.

NEW YORK, September 18.—A Washington special says that the Congressmen in the Mississippi and Missouri river valleys have, it is understood, very generally agreed to unite their efforts to secure an appropriation for the St. Philip Canal, at the outlet of the Mississippi river. It is expected that $12,000,000 will be necessary to make a ship canal which will enable ocean-vessels of the greatest burden to reach New Orleans without being obstructed by bars. It is claimed that with the completion of this canal, ocean going ships can proceed, during four months of the year, as far north as Cairo, Ill. Some of the Western members state that the people of the Mississippi valley seek a solution of the transportation question mainly in that direction.

LONDON, Sept 18.—Chief Justice Cockburn at the close of the hearing in the Tichborne case to-day, said that if the claimant resumed his travels through the country representing himself as a martyr it would be the duty of the court to put a stop to scandal by committing him to jail; every judge and juryman connected with the case had been threatened with assassination if a verdict against the defendant should be brought in. The Chief Justice warned the claimant that if he made another speech or appeal before the public he would surely be imprisoned.

PHILADELPHIA, Sept. 18.—Mr Cooke says: "I believe this house will speedily be relieved from embarrassment, and to this end, if needs be, every dollar of means possessed by the members of the firm will be applied. No one who has a dollar on deposit here will lose it Every liability will be faithfully discharged"

The temporary suspension of the American house does not in any way effect the London house of Jay Cooke, McCullough & Co, from whom the following telegram by cable was received this afternoon, creating the liveliest satisfaction when made known to the public:

"LONDON, Sept. 18—The London firm of Mr. Cooke responds to his suspension by stating that all drafts and letters of credit on them issued by Jay Cooke & Co, will be duly honored."

LITTLE ROCK, Sept. 18.—A letter from Shreveport to the *Gazette*, dated yestesday, says stage lines have commenced running between that place and Monroe; also, Texas mail resumed.—The deaths are about the same, though there are few new cases. All fears of the fever reaching here have subsided. weather warm again; thermometer 82.

MEMPHIS, September 18.—Only 12 deaths to-day from yellow fever. The disease is believed to be under control.

The municipal authorities to-day voted $10,000 to the Howard Association. The Masons, Odd Fellows, Typographical Union and other societies have organized to provide nurses and money for their sick.

The fever is abating in Happy Hollow, and confidence is generally restored through the city, all the sick being provided with nurses.

HOW THE YELLOW FEVER GAINED A FOOTHOLD AT SHREVEPORT.

From the Vicksburg Herald.

The laws of nature and the laws of hygiene have both been outraged in Shreveport, and the people of that unfortunate place are paying the penalty.

We had previously heard that the town was in a horribly dirty condition. We had been told that bodies of putrid animals were to be seen sweltering in the sun in different portions of the city, while mud-holes, reeking with filth and miasmatic vapors, were poisoning the entire atmosphere in every direction, but our information, derived from a gentleman of character, betrays a state of facts that is absolutely appalling, and if not properly vouched for would be received with incredibility.

We are informed that a boat, having on board 100 or more Texas cattle, was recently sunk in Red river, very near Shreveport. Inexplicable and incredible as the statement may seem, we are informed that these dead animals have been fished from the wreck, and taken ashore for their hides, and that, after being skinned, the bloated bodies have been permitted to remain exposed to the rays of a burning sun, where they have sweltered, and poisoned, with the sickening effluvia arising from these decaying carcasses, the whole atmosphere! Is it astonishing, or rather is it not perfectly natural, that such a violation of the laws of health should be followed by a frightful epidemic? The wonder is that the population of Shreveport has not already been decimated by the ravages of malignant typhus fever, or some other equally deadly and malignant disease.

CONSUMPTION!

AND ITS CURE!

Victims of this awful disease are found in every neighborhood, in almost every house For them and for their friends, we have tidings of good cheer and hope—the announcement of a most important discovery, firmly based upon common sense and reason, by which the terrible malady is positively controlled, and its victims are restored to health.

WILSON'S

Carbolated Cod Liver Oil

Is not a secret empirical nostrum. It is a happy combination of two remedies known to physicians everywhere as the best means of combating consumption. This combination is Mr. Wilson's discovery, and is founded upon the following

SOUND REASONING.

Consumption is decay. Soothing, expectorant remedies are only useful as palliatives, they do not reach the cause—they do not stop the decay. Tonic medicines strengthen the life forces and prolong the battle, but the decay goes steadily on, and sooner or later the victim must yield. Climatic changes are sometimes good, but they seldom wholly cure In short the very first thing to be done is to STOP THE DECAY, then apply the restorative, tonic and strength giving treatment. Think a moment. The Lungs are decaying—tubercles, ulcerations cavities and deposits of poisonous matter (pus) are forming. The circulation carries this poison all over the body. Wasting, loss of appetite, enervation, night sweats, and all the terrible symptoms appear; Is it worth while to doctor the *symptoms*, which are merely the results, while the *decay*, which is the cause, is eating up the life springs?

These two things are well known by the best physicians:

1st, *Carbolic acid positively arrests Decay.* It is the most powerful antiseptic in the known world Even dead bodies are preserved by it. Entering into the circulation, it at once grapples with corruption, and decay ceases. It purifies the sources of disease

2d. *Cod Liver Oil is Nature's best assistant* in resisting Consumption. It is at once a food, a tonic, a purifier, and a healer. It braces up and supplies the vital forces, feeds the wasted system, and enables nature to regain her foothold. For these purposes nothing can compare with Cod Liver Oil.—This is the theory of

WILSON'S

CARBOLATED COD LIVER OIL,

As described fully in the Inventor's circular, which will be mailed, upon application, to any address.

We cannot afford space to tell the whole story here, or to give the numerous certificates from eminent physicians and well known citizens testifying to the absolutely wonderful results flowing from this great discovery. Suffice it to say, it is curing th usands who supposed themselves to be beyond health [illegible]

Wilson's Carbolated Oil is scientifically prepared with the purest Carbolic and [illegible]

CITY DEPARTMENT.

.. English breakfast tea, at Imboden's

...If you want a healthy stomach and clear head, use California Wine Bitters —Sold by Armstrong & Brown

...The new building to which we referred yesterday as being built on West Prairie street, is to be used as a blacksmith shop.

..The fine shower of last night cooled and purified the air, and this morning everything is fresh and green.

.. People can go about to-day without goggles to protect their eyes from dust. The street sprinkler can have a day for rest, and in fact the rain of last night was a godsend to everybody and everything.

.. Ice formed this morning on the sidewalks, but disappeared before the boys had time to buckle on their skates

.. [illegible] to-day of damage [illegible] last night not far from here [illegible] very vivid, and of that [illegible] appearance that usually carries [illegible]

.. [illegible] trains coming in over the [illegible] are simply immense — Nearly every day there are two trains of [illegible] to fifty cars each

.. We notice, in the premiums awarded on cattle at the State Fair, that our Macon county stock men are bearing away their full share of the prizes This is as we expected, and is a matter of which they may justly be proud

.. John W. Hartley has stepped to the front in the green grocery business, and leads the van in fresh fruits and vegetables Nice sweet butter and fresh eggs made a specialty Remember the place—round the corner, on Prairie street.

.. Mayor Forstmyer this morning received a handsomely bound copy of the Laws and Ordinances of Chicago, presented by that city to Decatur. It will prove to be a valuable book for the use of our city council

...The cool crisp air of the early morning caused many a fellow to stick his hand out towards where the stove ought to be

...The fine weather to-day will be favorable to the closing of the State Fair, The heat yesterday and day before must have been very uncomfortable for the crowds that were there.

...A new musical instrument has been patented—the pyrophone It produces its notes by the action of gas burning in glass tubes, and its expression is "penetrating, mournful, poetic and grotesque." If the pyrophone cannot make a better showing than this, it is not easy to see how it is to outdo the soul-melting melody of the Chicago gong, or the "lascivious pleasing" of the old-fashioned baby

..The school girls, neatly dressed, and trim as wax dolls, give the streets a lively appearance in the morning, as they wend their way to the school room at the call of the bell. The boys, more boisterous, and full of "Young America," help to swell the crowd as, satchel in hand, they wend their way to the halls of science.

..A train of eight wagons of movers, westward bound, passed through town this morning. They had fine looking horses and wagons, and had every appearance of being enterprising people They intend to drive stakes somewhere in Kansas.

.. The crowd at the State Fair yesterday was immense, being nearly double what it was the day before It commenced raining about 2 o'clock in the afternoon, which somewhat interfered with the programme

..We are now fairly installed in the fall months To morrow, night and day will shake hands with each other upon common ground, so far as the time mo ope [illegible] concerned But the [illegible] Night [illegible] day will not long be contented with an equality, but will continue [illegible] for more time

[illegible] look out [illegible] in any way, and [illegible] is to church [illegible] a pain [illegible] will greatly [illegible] of the fact

[illegible] Champaign, Monticello & Decatur Railroad come within sight of [illegible] now We suppose they are cars used in the construction of the road, and they carry occasionally a passenger or a little freight, as occasion offers

For Rent.—Three hundred acres of good pasture land, with a good supply of water. Enquire at Priest's hotel

Sept. 19—d2t,w1t

A Striking Similarity.—We notice a striking similarity between the article on the opening of the public schools, given by the *Local Review* of this week and credited to the *Tribune*, and an article upon the same subject which we wrote for our daily of the 8th, and which appeared also in our weekly of the 11th inst.

Getting Contented.—Emigration from our county is much less this fall than in any previous season for many years — Our people are beginning to think that, everything considered, Macon county is about as good a place as there is. And in this view they are correct. With our present and prospective railroad facilities we doubt if there is any point in the whole country that offers better advantages for making money than will be found right here. What we need is for people to quit theorizing and go to work. If there is a lack of business let them make it by opening up something that will give employment not only to themselves, but to others

Take Warning.—Now that the season of the year is at hand when stoves and fires will be coming into use, every man should see to it that his chimneys and flues are clear of soot, and where stove pipes pass through ceilings they should be well protected Care should also be taken that there are no cracks in the chimneys that will allow sparks to escape. These precautions may save much trouble and loss We want to keep our record good in the matter of exemption from big fires.

The Advantages of the Railroads.—The new roads that are centering at Decatur will be a help in more ways than one. Upon every line of new road opened, towns will spring up, which will make Decatur a trading centre If our merchants study their interests they will open up a jobbing trade with these towns, which must, in the very nature of the case, continue to grow, and there is no reason why our city should not develop an extensive wholesale business.

The Prairie Corn Sheller, manufactured by Messrs. Laurean & Laing, of Chicago, is the simplest and best thing of the kind for small farmers that we have yet seen. It only costs eight dollars, and will shell ten bushels of corn per hour — One of the proprietors, at the State Fair, while exhibiting the same, sold 250 of them, which is a proof of its utility. For particulars address as above

On the Down Grade —The young men of our city are familiar with persons whom they have known as prosperous business men, who are now mere wrecks of what they once were We call attention to the matter as a kind of admonition to our young men to be upon their guard against any practice or indulgence, that is fraught with consequences so disastrous to the happiness and prosperity of men — These persons, however low they may have fallen, have come to their present condition by degrees. Indulgence, in kind and degree, which was considered innocent and harmless at the outset, has culminated in the terrible disaster that has blasted all hope and prostrated manhood Look well to your goings, young men, and take no step tending toward so fearful a degradation

Disappointed—Those who had appointments for evening strolls last night, and got headed off by the shower. Never mind, the prospect is good for fine weather this evening.

Ecclesiastical.—Bishop Wiley, of Boston, is to preside at the session of the Illinois Conference, to be held at Bloomington next week, and Bishop Simpson at the session of the Rock River Conference, which meets at Mendota at the same time.

Two Made One —People seem to be in a marrying mood these days. We have lately had occasion to publish several marriage notices, and there are, we understand, a number of persons who have passed, each to the other, the "solemn vow," and it only remains for the Parson or the Squire to say "you twain are one flesh."

Correction.—In our yesterday's paragraph upon the State fair our compositor made us say that parties who had been at the fair were not loud in their praise of the accommodations for "feeding and boarding" the multitude. We wrote "feeding and lodging." We make the correction, thinking perhaps our readers would be puzzled to discriminate between feeding and boarding people.

Still Quiet —This is our third successive issue without a police record We speak of it because no more important fact can be mentioned We have a vigilant active police force, and if they have no occasion to use their authority in making arrests for disorder and drunkenness, we regard it as a fact worthy of being chronicled every day in the year, if the same state of affairs continues

Harrison & Co. Vibrator.— We were not aware that the manufacture of Vibrators had reached such perfection in Illinois until it was our pleasure to witness the operations of Harrison & Co's Vibrator, of Belleville, Ill., at the State Fair — [illegible] quickly [illegible] Our farmers would raise considerable flax would do well to write to Harrison & Co. and obtain circulars of this machine before purchasing any other To sum up its advantages in a small space, we would say it saves all the grain, cleans it well, is a durable machine, and the horse power is so arranged that the draft is on an even plane with the shafting This is a new arrangement, and one that works well Another advantage of buying the Harrison Vibrator is that it costs less, by $100, than the same size of other machines. Send to the manufacturers for circulars

Lemon and Orange.—Dr Price's Special Flavorings of LEMON AND ORANGE are made from the fruit, and have their grateful, agreeable taste without the turpentine odor which is observed in those extracts usually sold, made from poisonous oils, acids, and taste sharpened by Cayenne Pepper. We advise those who wish choice, pure extracts to buy Dr Price's. They are, like his Cream Baking Powder, all that is represented, really genuine, almost alone in the market in these respects. [w1d2

An Invitation.—Everybody is invited to call at S. Einstein's and examine the new, full and complete stock of dry goods, just arrived from the east The selection of our new fall stock cannot be surpassed, and our prices defy competition. We are bound to undersell the lowest, and we are determined to sell none but the very best goods. Our stock of dry goods is complete in every department, all we ask is to have them examined and learn the prices, we guarantee satisfaction. We specify no prices here but pledge ourselves to sell cheaper than any other house in the city. Our stock consists of a fine assortment of prints, domestics, dress goods, flannels, cassimeres, blankets white and colored, and a complete selection of ladies' and gents' furnishing goods and notions. Be sure and call and examine our goods and learn our prices, as we consider it no trouble to show goods. No. 21 N. Water street, next door to Fenton's clothing store 1w.

Words of Cheer.—Mr. Samuel Cunningham, of Niantic, is about removing to Fayette county. He called to day to have his paper changed to his new place He said he couldn't keep house without the REPUBLICAN, as it was getting better and better every week. He assured us the first thing he would do after getting moved would be to send us a large club of new subscribers We are sorry to lose Mr. Cunningham from our county and heartily congratulate the people of Fayette county upon their receiving so valuable an acquisition to their community.

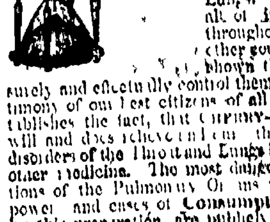
Ayer's

Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption



Among the great discoveries of modern science few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues throughout this and other countries has shown that it does surely and effectually control them. The testimony of our best citizens of all classes establishes the fact, that CHERRY-PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power and cases of **Consumption**, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attacks of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence and it is unwise to be without it As a safeguard to children amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected

Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver and bowels They are a mild aperient, and an excellent purgative. Being purely vegetable they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use, and every family should have them on hand for their protection and relief when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use the blood is purified the corruptions of the system expelled obstructions removed and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills* and stimulated into action. Thus incipient disease is changed into health, the value of which change when reckoned on the vast multitude who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh and perfectly reliable. Although searching they are mild and operate without disturbance to the constitution or diet or occupation

Full directions are given on the wrapper to each box how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure —

For **Dyspepsia or Indigestion Listlessness, Languor, and Loss of Appetite,** they should be taken moderately to stimulate the stomach and restore its healthy tone and action

For **Liver Complaint** and its various symptoms, **Billous Headache, Sick Headache, Jaundice or Green Sickness, Billous Colic and Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery or Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel Palpitation of the Heart, Pain in the Side, Back, and Loins,** they should be continuously taken, as required, to change the diseased action of the system With such change those complaints disappear

For **Dropsy and Dropsical Swellings,** they should be taken in large and frequent doses to produce the effect of a drastic purge

For **Suppression,** a large dose should be taken as it produces the desired effect by sympathy

As a *Dinner Pill* take one or two *Pills* to promote digestion and relieve the stomach

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus
